

The JNPA Ballet Program follows a specific graded curriculum, divided by age, which is outlined in every National Training Curriculum. Class size is limited. Students will be placed by JNPA's artistic faculty in the appropriate level based on their technique.

The children's division classes are focused on building a solid foundation on ballet technique with a emphasis on proper placement and safe professions of movements while remaining sensitive to the developmental needs of younger dancers. The children's program will be JNPA company ballet levels 1 & 2. The pre professional program will be JNPA company ballet levels 3 & 4 and level 5.
